"The collection of coins has not only become an infatuating and engrossing pursuit among thousands of persons of all ages and either sex, but out of it has grown up an extensive trade, furnishing the means of livelihood to numerous individuals in all our large cities. Prices have risen a hundred fold, in some cases almost incalculably; unreasonably; and speculation has been rife...

(from The American Journal of Numismatics, Vol. 1,No.1, May 1866.)

**OUR TERMS OF SALE**

1. All coins are guaranteed genuine. I will replace or issue a refund for any coin found not to be genuine. This is a lifetime guarantee. Over ten years of business I have never had to make good on this promise. But I make it anyway for your protection.

2. All attributions are guaranteed correct. Also a lifetime guarantee. I will issue a refund or if available provide a replacement for any coin found to be mis-attributed.

3. A full thirty day return privilege is allowed on all purchases. Returns may be made for any reason, or no reason. My business depends on attracting repeat customers. It does neither of us any good for you to keep a coin with which you are not completely satisfied. I am confident that the overall quality and value of the material I offer here is second to none. This does not mean that you might not order a coin that fails to satisfy your personal taste or desire. It is even possible for me to have missed a defect or to have been been optimistic about the grade. It can happen. But it is not my intention. I encourage you to use the thirty days as an approval period. Feel free to show your purchases to other knowledgeable EAC members. Get a second opinion. All sales are final after the thirty day period, though I will certainly consider an extension upon reasonable request.

4. Approval service is also available to established clients. Seven days inspection is allowed on approval service at which time the coin must be returned or funds remitted. Approval sales are considered final after the seven days. Extensions are available upon request. We also accept VISA and MASTERCARD.

5. All orders are sent postpaid.

6. Strict ANA and EAC guidelines are followed in grading.

In addition to strict ANA and EAC guidelines I have introduced "value" or "net" grading into my descriptions. Sharpness or technical grade according to ANA standards is fairly easy to describe with consistency. However most old copper coins have acquired defects over time that detract from the overall desirability of the coin. I describe these defects and deduct from the technical grade based on

their presence. As an example a coin might be described: "1805 S-269 VF20 Sharpness of VF30 with smooth brown surfaces, some light pinscratches where corrosion was removed at K1 reverse." Here is a coin VF30 by ANA standards but with scratches at one o'clock on the reverse. Plainly the coin would be more desirable were the scratches not present. I describe the defects and deduct ten points from the overall grade. The first grade listed represents the net or value grade. Clearly this is an art and elements of subjectivity are inevitable. Where there is no second grade listed it is my opinion that the net grade is the same as the sharpness grade. Perhaps not perfection but whatever marks present have been judged to be consistent with the technical grade of the coin and do not detract from the net grade. The intent is for you to have as close an idea as possible of the overall condition of the coin you may wish to purchase. No unpleasant surprises!

7. I attempt to give a rarity rating for each variety listed. These in large part reflect the current EAC rarity ratings as compiled by Jack Robinson's Copper Quotes. I also offer opinions relative to condition census ratings die state and condition rarity. These change constantly as new coins are discovered and reported. I attempt to use the latest data or information available. Still these ratings cannot be 100% accurate and remain a matter of opinion only. Having said this I can also say with confidence that more information and more research is available on Early Copper than any other area of American Numismatics. Large Cents have been actively collected and researched for more than one hundred years. One can therefore have a high degree of confidence in the general accuracy of current information. I urge all my clients to form the numismatic library necessary to allow them to make informed judgments and purchasing decisions. It is foolish to invest money in coins if you have not already invested in the books and other sources necessary to the full enjoyment of them.

8. I have yet to meet anyone who has bought coins merely as an investment who has realized a net return upon liquidation. I have, however, met numerous serious collectors, who having formed a discriminating collection over a period of years realized a substantial profit when their collection was ultimately sold. Most collectors find that the enjoyment, education, and friendships formed as a result of their collecting pursuits have been their greatest reward. It is much easier to lose money quickly than to make money quickly in rare coins. If you are not willing to undertake the educational process necessary to make well informed decisions regarding your collection you will almost certainly lose. Coin dealers are often more than willing to give investment advice. As my good friend Jack Robinson, (who's collection did very well for him when it was sold in 1989), likes to say. THINK ABOUT IT! When you ask a cat which canary to buy remember his first concern may not be how well it sings! There are many opportunities to do well financially in

rare coins. But as with any other medium of investment, success is the result of a combination of knowledge, good timing and the ability to wait for the right time to sell. Commit yourself to the process of becoming an educated collector and you stand a good chance of success.

## INTRODUCTION

Welcome to my June/July catalog. I have just returned for my most successful EAC ever. The Las Vegas contingent of Al Boka, Jeff Gresser, and Wes Rasmussen did a fantastic job of organizing the convention. I returned with several double row boxes of new material, a portion of which is offered below.

Please note the family will be on vacation June 8-18. Messages can be left on my answering machine or at the shop 405-340-1370.

Our next M & G Auction is scheduled for the fall Long Beach Show, Saturday night September 13 and the Colonial Collector's Club Convention Sale Saturday, November 8, 1997, in Boston. We are presently accepting consignments to both these sales. Our sale of the Wes Rasmussen Collection of Late Date Cents is scheduled for January of 1998.

**NOTE WE NOW TAKE VISA & MASTERCARD**

## COLONIALS

1652 MASSACHUSETTS PINE TREE SHILLING NOE.2 VF30+ $2400.00
Lustrous light grey with a large full size planchet. A neat eagle's beak void in the planchet K1 as minted, removes part of S and corresponding N in ENGLAND. Otherwise legends are full. A great representative example of early colonial silver. SDB:110.

1652 PINE TREE THREEPENCE NOE 36 R2 VF20 15.2 gns. $1375.00
Toned light gray with generally smooth surfaces and only minor marks. Struck low on the tree side with the bottom few letters partially off the planchet. MASA is bold as is the tree, while the last two letters in MASATHVSETS are quite faint. A broad semi-circle of unstruck planchet extends beyond the outer circle of beads from 11:00 to 3:00. The date side is better centered with a full legend that is tight against the flan by AND with a natural flaw at the rim by N. This denomination was crudely struck on a very thin silver, while the surfaces here are slightly uneven they are not crease or "wrinkled" as is often found. For those interested in "Red Book Types", this is the newly designated without pellets at trunk type.

1787 CONNECTICUT M.33.4-q R6 VF35 122.0 gns $ 450.00
Tan and in an unusually high grade for this rare variety. Essentially glossy, but the surfaces are interrupted at points by thin striae and two or three small flaws, one partially obscuring the last digit of the date. Extremely hard to improve on for the variety.

**DOUBLE STRUCK NEW JERSEY M.16-L**

1786 NEW JERSEY M.16-L F12 $ 950.00
Smooth light brown. Double struck with two full dates. Quite dramatic. SDB:15.

1787 NEW JERSEY M.38-Y F15 $ 275.00
Glossy tan. Few minor marks. Nice. Ex. Richard Picker.

1787 NEW JERSEY M.46-e EF40 $ 595.00
Though among the most common of New Jersey varieties die clashing almost always obscures all or part of the date depending on the die state. This coin is struck from the scarcer and desirable early state with a full crisp date, though heavy clashing remains in the fields as always. Alternating golden brown and dark olive brown. Lightly granular surfaces.

1787 NEW JERSEY M.58-N VF20 $ 450.00
Medium chocolate brown. Grainy surface. A dramatic planchet clip K7-9. Scarce camel's head.

1787 NEW JERSEY M.63-s R1 F15 119.4gns. $ 185.00
A Large Planchet Type. Smooth and relatively glossy light brown surfaces deepening slightly in the right hand fields. Bare minimum of contact marks with a few traces of reverse porosity. Pleasing.

1787 FUGIO N.4-E VF35 $ 535.00
A deep olive brown with obverse highlights a bit lighter. Some fine granularity towards right of obverse. Perfectly centered and evenly struck, the reverse in particular retains a lot of flash which adds significant appeal to a darker coin. A small toned scrape inside reverse label starting at the top of the second E is fairly well hidden. Overall a nice example of a Club Ray Fugio.

1786 VERMONT RR9 VF20 BABY HEAD $ 650.00
Chocolate with a trace of gray porosity. Very sharply struck for this variety. Two thirds of date shows. Ex. Barnes:449. 118.1 gns.

Glossy medium brown. Few tiny reverse pits. Great eye appeal.

1773 VIRGINIA HALFPENNY MS63 $ 750.00
Full faded mint red. Semi-prooflike surfaces. Getting more difficult to find.

1799 WASHINGTON SKULL AND CROSSBONES FUNERAL MEDAL-SILVER-BAKER 165A, FULD DIES 1-1 R6 VF 133.8 gns. $3875.00
Arguably the most popular medal in Washingtonia. Holed for suspension as made. This example is attractively toned with subtle contrasts of medium and lighter gray and faint hints of pink and gold. It has scattered light contact marks but no significant scratches or digs. Evenly worn with all design and legends clear except for the numerals 15 at the center reverse. Highly distinctive and avidly sought after, roughly 30 Washington Skull and Crossbones funeral medals are known of all dies and metal compositions combined. These were made for and worn at a massive Masonic funeral procession held in Boston on Feb. 11,1800, attended by 1,600 members. All Washington Funeral Medals, including those with the more prevalent Urn design, have dramatically risen in value over the last 5 years as their appeal has broadened to include collectors of Early American Coins along with traditional collectors of Medals and increasing ranks of Washingtonia devotees. This Piece can be traced back to the David Dryfus Collection, sold jointly by Bowers and Merena and Presidential in an April 1986 Auction: lot 5624.

**SELECTIONS FROM:**

**THE CINDY GRELLMAN CIVIL WAR TOKEN COLLECTION**

Cindy Grellman assembled, over a period of two decades, one of the most important CWT collections of our generation. Cindy has a true copper collector sense of color and surface, and a willingness to upgrade repeatedly, resulting in a collection of uniformly superb quality. Additionally, Cindy's collection is well over 90% complete by merchant and reverse die. Among collections dispersed over the past 30 years only the Fuld and Kuehneat collections had comparable quality and completeness. I have selected the following specimens for their variety and outstanding condition. Many are plated in key reference works, or are among the finest known examples of the variety. **COMMENTS**

The most enjoyable part of this year's EAC Convention? That could be hard to pinpoint most years. But this year for me it was an easy call. No it wasn't the fantastic bourse. Though from a business point of view it certainly was great. The room filled to capacity every day. My best sales convention ever. Instead, my most enjoyable time was had the first evening. A friend and client of mine had brought a new collector and member of EAC to the convention. He had never attended an EAC Convention before. Really knew almost no one and had a relatively modest knowledge of early copper. He had volunteered to show coins at the Large Cent Happening, been seated behind one of the tables, and given 15 coins to show. The coins were all 1794 S-48's. Fifteen starred reverse 1794's assembled at one time! As you can imagine his was a very popular table. Over a period of time and conversation with other club members it began to dawn on him the significance of the coins and the responsibility he had been given. Fifteen starred reverses. Worth? Close to half a million dollars I'd guess.

Do you know any other club where a new member is so immediately welcomed and trusted? Neither do I and neither did this new Early American Coppers club member. Let's never forget what a treasure we have in this club and the people who make it up. He was only one of I'm sure many first time attendees who went home with an unforgettable experience.
